

## FOR IMMEDIATE RELEASE

### R&D LOGIC APPOINTS JOHN WHITING AND SCOTT CLARKE TO ITS BOARD OF DIRECTORS

**San Mateo, CA – May 6, 2010** – R&D Logic, premier SaaS provider of business management software and services, today announced the appointment of John Whiting and Scott Clarke to its Board of Directors.

“Our new Board members bring more than 50 years of combined experience in the Life Sciences and Software industries. These industry veterans will enable R&D Logic to continue to deliver substantial value to the Life Sciences Industry,” said Wanda Ionescu, Chief Executive Officer and President, R&D Logic Inc.

John Whiting began his career at Genentech in 1989. During his 20 years with Genentech he was responsible for all aspects of accounting and finance. His oversight of the financial planning function included long range planning, budgeting/forecasting and mergers and acquisitions analysis. In 1997 he became Controller and Chief Accounting Officer, in 2001 was named Vice President and retired in 2009 as Deputy Chief Financial Officer. Prior to joining Genentech, John was a senior audit manager at Arthur Young & Company. John holds a B.S. in Molecular Biology and a M.B.A. from the University of Oregon.

Scott Clarke’s management career began in 1990 as VP of Management Information Services at 3Com. He then became Chief Information Officer at Syntex Corporation, Senior Vice President Operations at Incyte Pharmaceuticals and Chief Executive Officer at BioSpace.com and Discovery Innovations. Most recently Scott held the position of Vice President and General Manager at Entelos, Inc. During his career, Scott has been recognized for his expertise in managing large organizations and developing, producing, and delivering software products and services that are aligned with key business objectives. Scott received a B.S. in Mathematical Sciences from Stanford University, and an M.B.A. from UCLA.

“The addition of John Whiting and Scott Clarke to the R&D Logic board of directors brings a wealth of strategic development expertise that is invaluable for the company as we continue to grow and explore new business opportunities. On behalf of R&D Logic I would like to extend a warm welcome to both John and Scott,” said Wanda.
